

We are pleased to announce City of London Primary Academy Islington (COLPAI) will be housed, temporarily, within the brand new Moreland Primary School building on Moreland Street EC1V. COLPAI will be completely separate and have its own dedicated zone complete with sky garden.

Head teacher Kim Clapham said “I am delighted to have secured our temporary site within this state of the art new building within walking distance of our permanent site. Such an environment will enable us to offer a world class education from day one.”
